

OM LAHARE

Data Analyst | AI/ML Engineer
DevOps Engineer

- +91 9392237410
- Pune, Maharashtra
- omlahare02@gmail.com
- <https://github.com/Lahare-Om>

Final-year Computer Science student with hands-on experience in data analytics, machine learning, and DevOps. Skilled in Python, SQL, and data visualization, with experience building predictive models and deploying applications using Docker and Kubernetes. Proven ability to analyze data, extract insights, and build scalable solutions. Seeking Data Analyst or AI/ML roles to apply analytical and problem-solving skills in real-world scenarios

WORK EXPERIENCE

- JAN 2026 - INVARIANT SYSTEMS PVT. LTD.**
Software Engineer Intern - DevOps
 - Containerized and deployed a Java-based application using Docker and Kubernetes (Kind, Minikube), improving deployment efficiency
 - Created Kubernetes resources (Deployment, Service, ConfigMap, Secret) for scalable application management
 - Implemented GitOps workflow using Argo CD, enabling automated and consistent deployments
 - Debugged deployment issues and monitored application health using logs, events, and probes
 - Automated deployment workflows and documented setup for reproducibility
- AUG 2025 - DEC 2025 - MEDTOUREASY**
Data Analyst Intern
 - Developed a machine learning model to predict blood donation behavior using real-world datasets
 - Cleaned, preprocessed, and transformed data to improve model performance and reliability
 - Conducted exploratory data analysis (EDA) to identify trends and patterns in donor data
 - Built predictive models using Python (Pandas, NumPy, Scikit-learn)
 - Generated insights to support data-driven decision-making
 - Worked on end-to-end data analytics workflow from data processing to model evaluation

EDUCATION

- AJEENKYA DY PATIL UNIVERSITY**
Pune, Maharashtra
B.Tech - CSE
2022 - 2026
- VIKAS - THE CONCEPT SCHOOL**
Hyderabad, Telangana
Senior Secondary Education (XIIth)
2022

SKILL

- LANGUAGES**
Python, Java, HTML/CSS, SQL, C, C++
- DATA ANALYTICS**
Pandas, NumPy, EDA, Data Visualization, Matplotlib, Seaborn, Excel, PowerBI, Tableau
- MACHINE LEARNING**
Scikit-Learn, Regression, Classification, Model Evaluation
- DEVOPS & CLOUD**
Docker, Kubernetes (Kind, Minikube), ArgoCD, CI/CD, Git

LANGUAGE

- English
- Hindi
- Marathi
- Telugu

PROJECTS

SMART ATTENDANCE SYSTEM USING AUTOMATED FACE RECOGNITION

Tech Stack - Python, Django, OpenCV, face_recognition, SQLite, HTML/CSS

- Developed a role-based attendance system with Admin, Teacher, and Student portals using Django
- Implemented real-time facial recognition using OpenCV and face_recognition for automated attendance marking
- Designed database schema for managing students, classes, and attendance records
- Built analytics dashboard and CSV export functionality for attendance insights
- Integrated manual and automated attendance workflows for flexibility

SPRINGBOOT GITOPS DEPLOYMENT SYSTEM

Tech Stack - Java, Spring Boot, React, Docker, Kubernetes, Git, ArgoCD

- Developed a full-stack application using Spring Boot (backend) and React (frontend)
- Containerized application using Docker with multi-stage builds
- Deployed and managed application on Kubernetes with health checks and scaling
- Implemented GitOps workflow using Argo CD for automated and self-healing deployments
- Designed REST APIs and integrated frontend with backend services
- Automated deployment and cluster setup using scripts
